

# MedicsDocAssistant™ Urology Specific EMR

*"DESIGNED BY UROLOGISTS FOR UROLOGISTS"*

**Advanced Data Systems (ADS)** brings you MedicsDocAssistant™ a comprehensive EHR for Urology designed by a senior Mt. Sinai Urologist and equipped with a rich set of Urology specific templates. Over three years in development, this Urology EHR offers:

- **Straightforward capture of legacy data** minimizing the pain of the transition from paper charts to electronic paperless office
- **Extensive specialty content** provides full support for quick documentation of patient visits and treatment over the long term
- **Focus on urology for physical exam** for both male and female with ROS accompanied by physical exam findings for all body parts
- **Customizable, built in HPI templates** for documenting urology concerns such as BPH, Carcinoma of the Prostate, Cystitis, Elevated PSA, Impotence, Infertility, Irritable Bladder, Renal Colic, Renal Disease, UTI and more
- **Broad-spectrum of procedure templates** which include Cystoscopy Operative Report, Catheterization, Lupron, Renal Sonogram, Pelvic Sonogram and many others associated with urology treatment
- **Proposed E/M coding level** based on visit documentation
- **Flexible templated consult letters** which can be easily modified and sent to the referring physician
- **Automated workflow for the urologist** supports the provider through every aspect of patient care and streamlines office processes including scanning, e-faxing and e-prescriptions
- **Seamless integration** with the practice management system used by the office including scheduling, billing and patient tracking
- **Integrated clinical devices** interconnectivity and lab interfaces
- **Patient charts readily available** in the office as well as from any location where internet connection is available

An industry leader, ADS has been in the exclusive business of providing medical practice management systems since 1977. When considering the real world needs of today's providers and health care administration, your first choice should be a proven product backed by a trusted company.
