

### ADS-RECOMMENDED MINIMUM EQUIPMENT REQUIREMENTS

As an IBM™, Lenovo™ and Microsoft™ Business Partner, ADS and the ADS IT Department are able to provide your practice or RCM company with the hardware / components needed to properly utilize our Medics solutions.

Clients may opt to obtain their own equipment / IT services utilize existing equipment. The following lists our Recommended Minimum Requirements for those clients to use as a guide.

ADS recommends a single, dedicated server be used for any Medics application(s); one dedicated server can be used for MedicsPremier and / or MedicsDocAssistant. We do not recommend using a server onto which other programs are also installed, or which is used for any other purpose.

Be sure you can perform backups on your server and that valid malware protection is installed on the server as well as all workstations that are networked to the Medics server.

Workstations			
Processor	Intel™ -i3 (3.0GHz) or higher		
Memory	4GB RAM; systems w/Dragon Medical™: 8GB RAM		
Hard Disk	50GB free space		
Operating System	Windows™-7 Pro or Windows-8/8.1 Pro (both 64-Bit), Microsoft .Net 3.5 with all Windows updates installed		
Tablets/Laptops			
Processor	Intel™-i5 2.4 GHz		
Memory	4GB RAM, 8GB RAM for systems w/Dragon Medical		
Hard Disk	50GB free space		
Operating System	Windows™-7 Pro or Windows-8/8.1 Pro (both 64-Bit), Microsoft .Net 3.5 with all Windows updates installed		
Wireless	802.11 N Wireless		
iPads™/Android™ Tablets	Requires a Remote Desktop (RDP) "App" (see note below)		
Servers			
	Up to 5 Users	Up to 15 Users	Up to 50 Users
Processor	4-Core, 2.0GHz	4-Core, 2.4GHz	6-Core, 3.0 GHz
Memory	4 GB RAM	8 GB RAM	24 GB RAM
Available Disk Space*	500GB (RAID-1 SATA)	750GB (RAID-10 SATA)	1TB RAM (RAID-5/10 SAS)
Operating System	WIN-2012-R2	WIN-2012-R2	WIN-2008-R2/2012-R2
SQL for MedicsDocAssistant	SQL Server 2014 EXP Edition	SQL Server 2014 STD Edition + CALs	SQL Server 2014 STD Edition + CALs**
Customized specifications can be provided for servers supporting more than 50 Users.			
*Additional storage may be required for high volume document scanning.			
**Core-based licensing with virtualization for more than 30 MedicsDocAssistant users is more cost effective.			
<b>NOTE:</b> Does not include Terminal-Server (RDP) function.			
Scanners			
Local	USB attached with Twain-compliant drivers		
Network	Example: all-in-one, multi-function units should be configured to save files in ftp://server name or server IP-address /bulkscan; login & PW is dafiles		
Network			
Local Network Speed	1000 MBPS (1-GPS)		
Internet Speed for ASP	15/5 Mbps Upload/Download Speed, 30/10 Mbps or better recommended		
IP Addresses	Servers must have a static IP address
