

WindowOne™ from ADS

Boosts Productivity!

WindowOne functionality from ADS enables users to work in **one single window** from which a myriad of readily-needed data is displayed, without users having to hunt and peck throughout the entire system to find it.

Productivity, time savings, minimal keystrokes / mouse clicks, and efficiency are what you will experience using WindowOne functionality.

Schedule an appointment. See the patient's **balance**. View a general **account inquiry** of the patient. See the patient's **last diagnoses** and **procedures**. Post a **payment**. Essentially, "Everything You Need to Know Or Do Regarding This Patient" is right there with WindowOne!

So **maximize productivity, reduce hunting and pecking, and tune up and optimize** your practice's EHR and PM usage with the Medics Solutions Suite from ADS and its WindowOne functionality.

Want even more productivity?

Medics FlowText™ for the ability to create reports using Dragon Medical™, keyboard, or handwriting, and have text inserted exactly where it belongs in the patient's record, all in one pass. Medics FlowText is a **game-changer** in EHR data entry!

MedicsPortal™ for patients to self-serve 24x7x365 using secure internet connectivity for scheduling appointments, completing "paperwork" and questionnaires, communicating with the practice, and more.

MedicsKiosk™ similar to MedicsPortal, but usable by patients while in the waiting room.

"The Medics Suite, with all of its time savings abilities have produced incredible efficiencies for our practice to the point where we have realized **at least an extra 60-90 minutes of saved time at the end of each day.**" - **Ravi Venkataraman MD, Medical Director of Pain Centers of America**

The Medics Suite operates as a single, unified solution or can be made available separately as needed, and can be implemented in Cloud / ASP or Customer Hosted (client server) format.

If you feel like jumping out of your window using your current system, don't! Instead, jump into our window - WindowOne - and let it help you and your staff be way more productive, and do less clicking.

Contact ADS to schedule a personalized presentation of the MedicsDocAssistant EHR and MedicsPremier PM for your practice.

See why thousands of doctors rely on interoperable solutions from ADS.
