

Medics SMS™

Save-My-Spot™ Reminder Texts!

No-shows happen mostly because patients simply **forget** about their appointments.*

Overcome that problem with well-timed Medics SMS **appointment reminder texts** to patients' or guarantors' cell phones:

- patients **confirm or cancel** by replying to their texts
- replies **automatically inserted** into the scheduler with **alerts** on cancelations
- cancelations can be quickly called to **reschedule**
- **fill in gaps** with future appointments or **rearrange resources**
- call those who **haven't replied** for their status

Medics SMS texts can:

- be **multi-lingual**
- have **Google® maps** to the appointment location
- contain **special instructions** (fasting, clothing type, etc.).

Balance due reminders can be texted; patients are able to make secure **online payments** through the MedicsPortal using their iPads, iPhones or Androids!

Depending on your preference, texting can be done days in advance, the day before, the same day, or in any combination.

Texting is an **ideal way** to keep patients **engaged**, adding to an overall positive **experience**.

Medics SMS works to keep no-shows at a **bare minimum** with **resources humming** and **revenue generating!**
